

CHRISTIAN REYES

Data Analyst | Business Analyst | Marketing & Retail Performance Analytics

St. Cloud, FL | 407-577-4671 | chreyes1986@outlook.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with 8+ years of experience translating retail, marketing, and sales performance data into actionable business insights at Microsoft and Apple, combined with self-directed SQL and Power BI project work. Skilled in building dashboards and KPI frameworks that connect marketing activity to measurable business outcomes, analyzing customer and buyer behavior, and communicating findings to leadership in clear, business-focused terms. Certified in Google Data Analytics and SQL (DataCamp); proficient in SQL, MySQL, Power BI, and Excel.

SKILLS & COMPETENCIES

Technical: SQL | MySQL | Power BI (Dashboards, Reports, DAX) | Microsoft Excel (PivotTables, Advanced Formulas) | Office 365 | CRM Systems

Analytical: Marketing Performance Analysis | Customer & Buyer Behavior Analysis | Multi-Location/Event Performance Reporting | KPI Design & Tracking | Trend Identification | Data Storytelling | Actionable Insights

Business: Stakeholder Reporting & Presentations | Cross-functional Collaboration | Process Improvement | Operational Efficiency | Strategic Decision Support

PROFESSIONAL EXPERIENCE

Independent Data Analyst — Self-Directed Analytics Practice

2022 - Present

Remote

- Completed the Google Data Analytics Professional Certificate (Google/Coursera, 2023) and SQL Associate Certification (DataCamp, 2025), building applied skills in SQL, Power BI, and Excel-based analysis.
- Designed and built three end-to-end analytics projects using MySQL and Power BI: a healthcare revenue-cycle dashboard, a SaaS subscription churn analysis, and a hospital billing/claims reconciliation model (see Analytics Projects and Portfolio).
- Maintained continuous, hands-on development in data querying, dashboard design, and exploratory analysis between roles to stay current with analytics tools and practices.

Retail Sales & Data Support Specialist | Apple

August 2024 - January 2025

Florida Mall, FL

- Analyzed marketing campaign performance and customer purchasing behavior data to identify trends, evaluate buyer engagement, and connect promotional activity to in-store sales outcomes.
- Built and refined performance reports tracking key retail metrics including attachment rates, conversion rates, and event-driven sales trends to guide daily operational decisions.
- Translated raw POS, survey, and behavioral data into actionable upsell and cross-sell recommendations, presenting insights to leadership in clear, business-focused language.
- Maintained data integrity through POS system validation, ensuring reporting accuracy across multiple data sources used in store performance reviews.
- Partnered with store leadership cross-functionally to evolve standard reporting into deeper analysis answering strategic business questions.

Sales & Performance Analyst | Microsoft

October 2014 - July 2022

Orlando, FL

- Analyzed marketing and sales performance data across multi-location retail events to identify performance gaps, surface growth opportunities, and drive a 10% increase in Microsoft Assure service adoption through targeted, data-backed recommendations.
- Designed and launched a 'virtual store' performance framework during the transition to remote operations, driving a 20% increase in sales within the first quarter, directly connecting marketing activity to buyer outcomes.
- Built, monitored, and refined KPI reporting frameworks aligned with organizational goals, enabling leadership to understand not just what was happening, but why.
- Translated complex performance data into clear, actionable insights for senior stakeholders, consistently evolving static reports into deeper multi-layer analysis.
- Conducted ongoing customer engagement and service adoption analysis using survey results and behavioral data to inform marketing strategy and promotional planning.
- Ensured data validation and reporting accuracy across multiple business units, maintaining the integrity of insights delivered to senior stakeholders.

ANALYTICS PROJECTS

Healthcare Financial Analytics Dashboard — MySQL + Power BI

- Built an end-to-end interactive Power BI dashboard analyzing revenue cycle performance across departments and insurance providers, including KPI cards, time-series trends, and conditional formatting for payment delays.

SaaS Subscription Churn EDA — MySQL

- Performed multi-layer exploratory analysis on subscription data across plan types and billing cycles, identifying highest-risk customer segments and translating findings into a concrete promotional recommendation.

Hospital Billing & Insurance Claim Analysis — MySQL

- Joined billing and claims data to surface unreconciled procedures, then proposed an automated reconciliation workflow to reduce missed reimbursements.
